8 Child Protection Policy and Initiative of the Organization:

Major steps being taken by the organization to ensure child protection in the organization and project/s are;

- Orientation on Child Protection Policy to newly recruited staffs.
- Written Commitment (Sign) of staffs on child protection policy/behavior protocol.
- All staff used to sign in code of conduct before moving to field.
- Feedback collection from community people and board member to observe staff's behavior in office and field.
- Collect comment and suggestion through group meeting and complain box.

9. Special measures to be efficient in managing programme.

The following special measures and strategies will be applied to efficient and effective in managing the projects.

- **Community Participation:** Relief Nepal promotes the participation of communities (especially the target groups who are vulnerable to development needs such as pro-poor families, children, women, vulnerable families to disaster and climate risks, etc.) while identifying the local needs, planning and implementation of local intervention. The participatory approach or tools (PRA/RRA tools) will be used while identifying the real needs of community through promoting the equal participation of diversified groups of people in project identification, design and

implementation process. Further, it is prioritized to develop capacity of local groups and committee and their mobilization on project interventions and delivery.

- **Initiation to Joint Plan with Local government and relevant stakeholders:** In Relief Nepal's project, there is the practice of formulating joint plan with local government and relevant stakeholder. A specific platform for involvement of stakeholders and local government will be ensured through thematic dialogue, meeting, review and reflection, and such stakeholders' involvement in project will be assured through joint planning. Additionally, Relief Nepal also initiates for matching fund from local government and relevant stakeholder in the priorities projects.
- **Policy Advocacy:** Relief Nepal facilitate for implementation of government standard policies and its provision in local level (i.e. relevant to Relief Nepal working theme and priorities) through facilitating to mobilize the local committee, groups. There are several evidences of conducting such events for ensuring the implementation of government standards policies in Relief Nepal working areas. Similarly, the local groups and committee are supported to raise their voice on the local development priorities and integrating their priorities and needs in the local level planning process.
- **Build Ownership of LGs towards community development:** Relief Nepal priorities for joint planning and matching fund from Local Government (R/M) in community development priorities of local government. There are several evidences of fund mobilization from local government in construction, income generation interventions projects jointly by local government. For this purpose, Relief Nepal facilitates for joint planning of specific interventions together with local communities, institutions and local government.
- **Exploration and linkages with Previous Project's supports:** Relief Nepal, getting support from different partner will conduct a rapid assessment of previous projects' support in the proposed project location. The assessment will provide the existing situation of project supported beneficiaries, households, groups, network, institutions or physical infrastructure developed support. On the basic of the findings of the assessment, a follow-up activity will be planned for effective utilization of physical infrastructure and engagement/mobilization of existing groups/institutions in the current programme.
- **Project Management Committee:** Relief Nepal facilitate to organize Project Management Committee in each project with representation of organization, beneficiaries, local government and like-minded agencies. The PMC supports for planning, resource mobilization, and monitoring of project's intervention. The PMC also deals the issues and challenges encountered during project implementation process.
- **Regular reflection, review and learning capturing:** Relief Nepal promotes periodic review (both internal and external) of project to assess the project's delivery status and its results. Such review and reflection session ensure the quality and timely delivery of project interventions and assist for capturing learning from implementation approaches, process; and finally admires for improvement in future.

11. Organizational Structure/Organogram
